

impey

Accessible Showering Additions

Comfort for everyone.

April 2025

**Market leader
for a generation**

Our core mission has always been to provide better showering options for all. Our wetroom system continues to lead the market with unmatched performance and lifetime guarantees.

Further showering comfort

Historically, accessible bathroom fittings have been limited in both variety and design appeal. Our in-house product designers collaborate closely with accessibility experts to create solutions that seamlessly blend style and functionality, dispelling the myth that accessibility has to compromise on aesthetics.

Reasons to choose Impey

We are immensely proud of our highly experienced support team and our market leading product range.

Our expanding portfolio of innovative award-winning accessible showering products offers the chance to create elegant and ergonomic shower spaces.

Market-leading wetroom floor formers, half height shower doors, multi-function grab rails, glass screens that provide space and dignity and shower seats with colour and shape variation.

In-house Innovation

Leading the way in innovation for wetrooms and accessible bathrooms.

Innovations are embedded in every design across the Impey portfolio. We redefine what is possible, add value and bring unprecedented benefits to the installer and user.

Combining enhanced functionality and improved performance with stylish and contemporary design, we make it easy to create tailored showering spaces that are modern, attractive and cater to personal requirements.

Across our product ranges, the best materials and rigorous construction methods are utilised, to ensure the very highest level of quality and reliability.

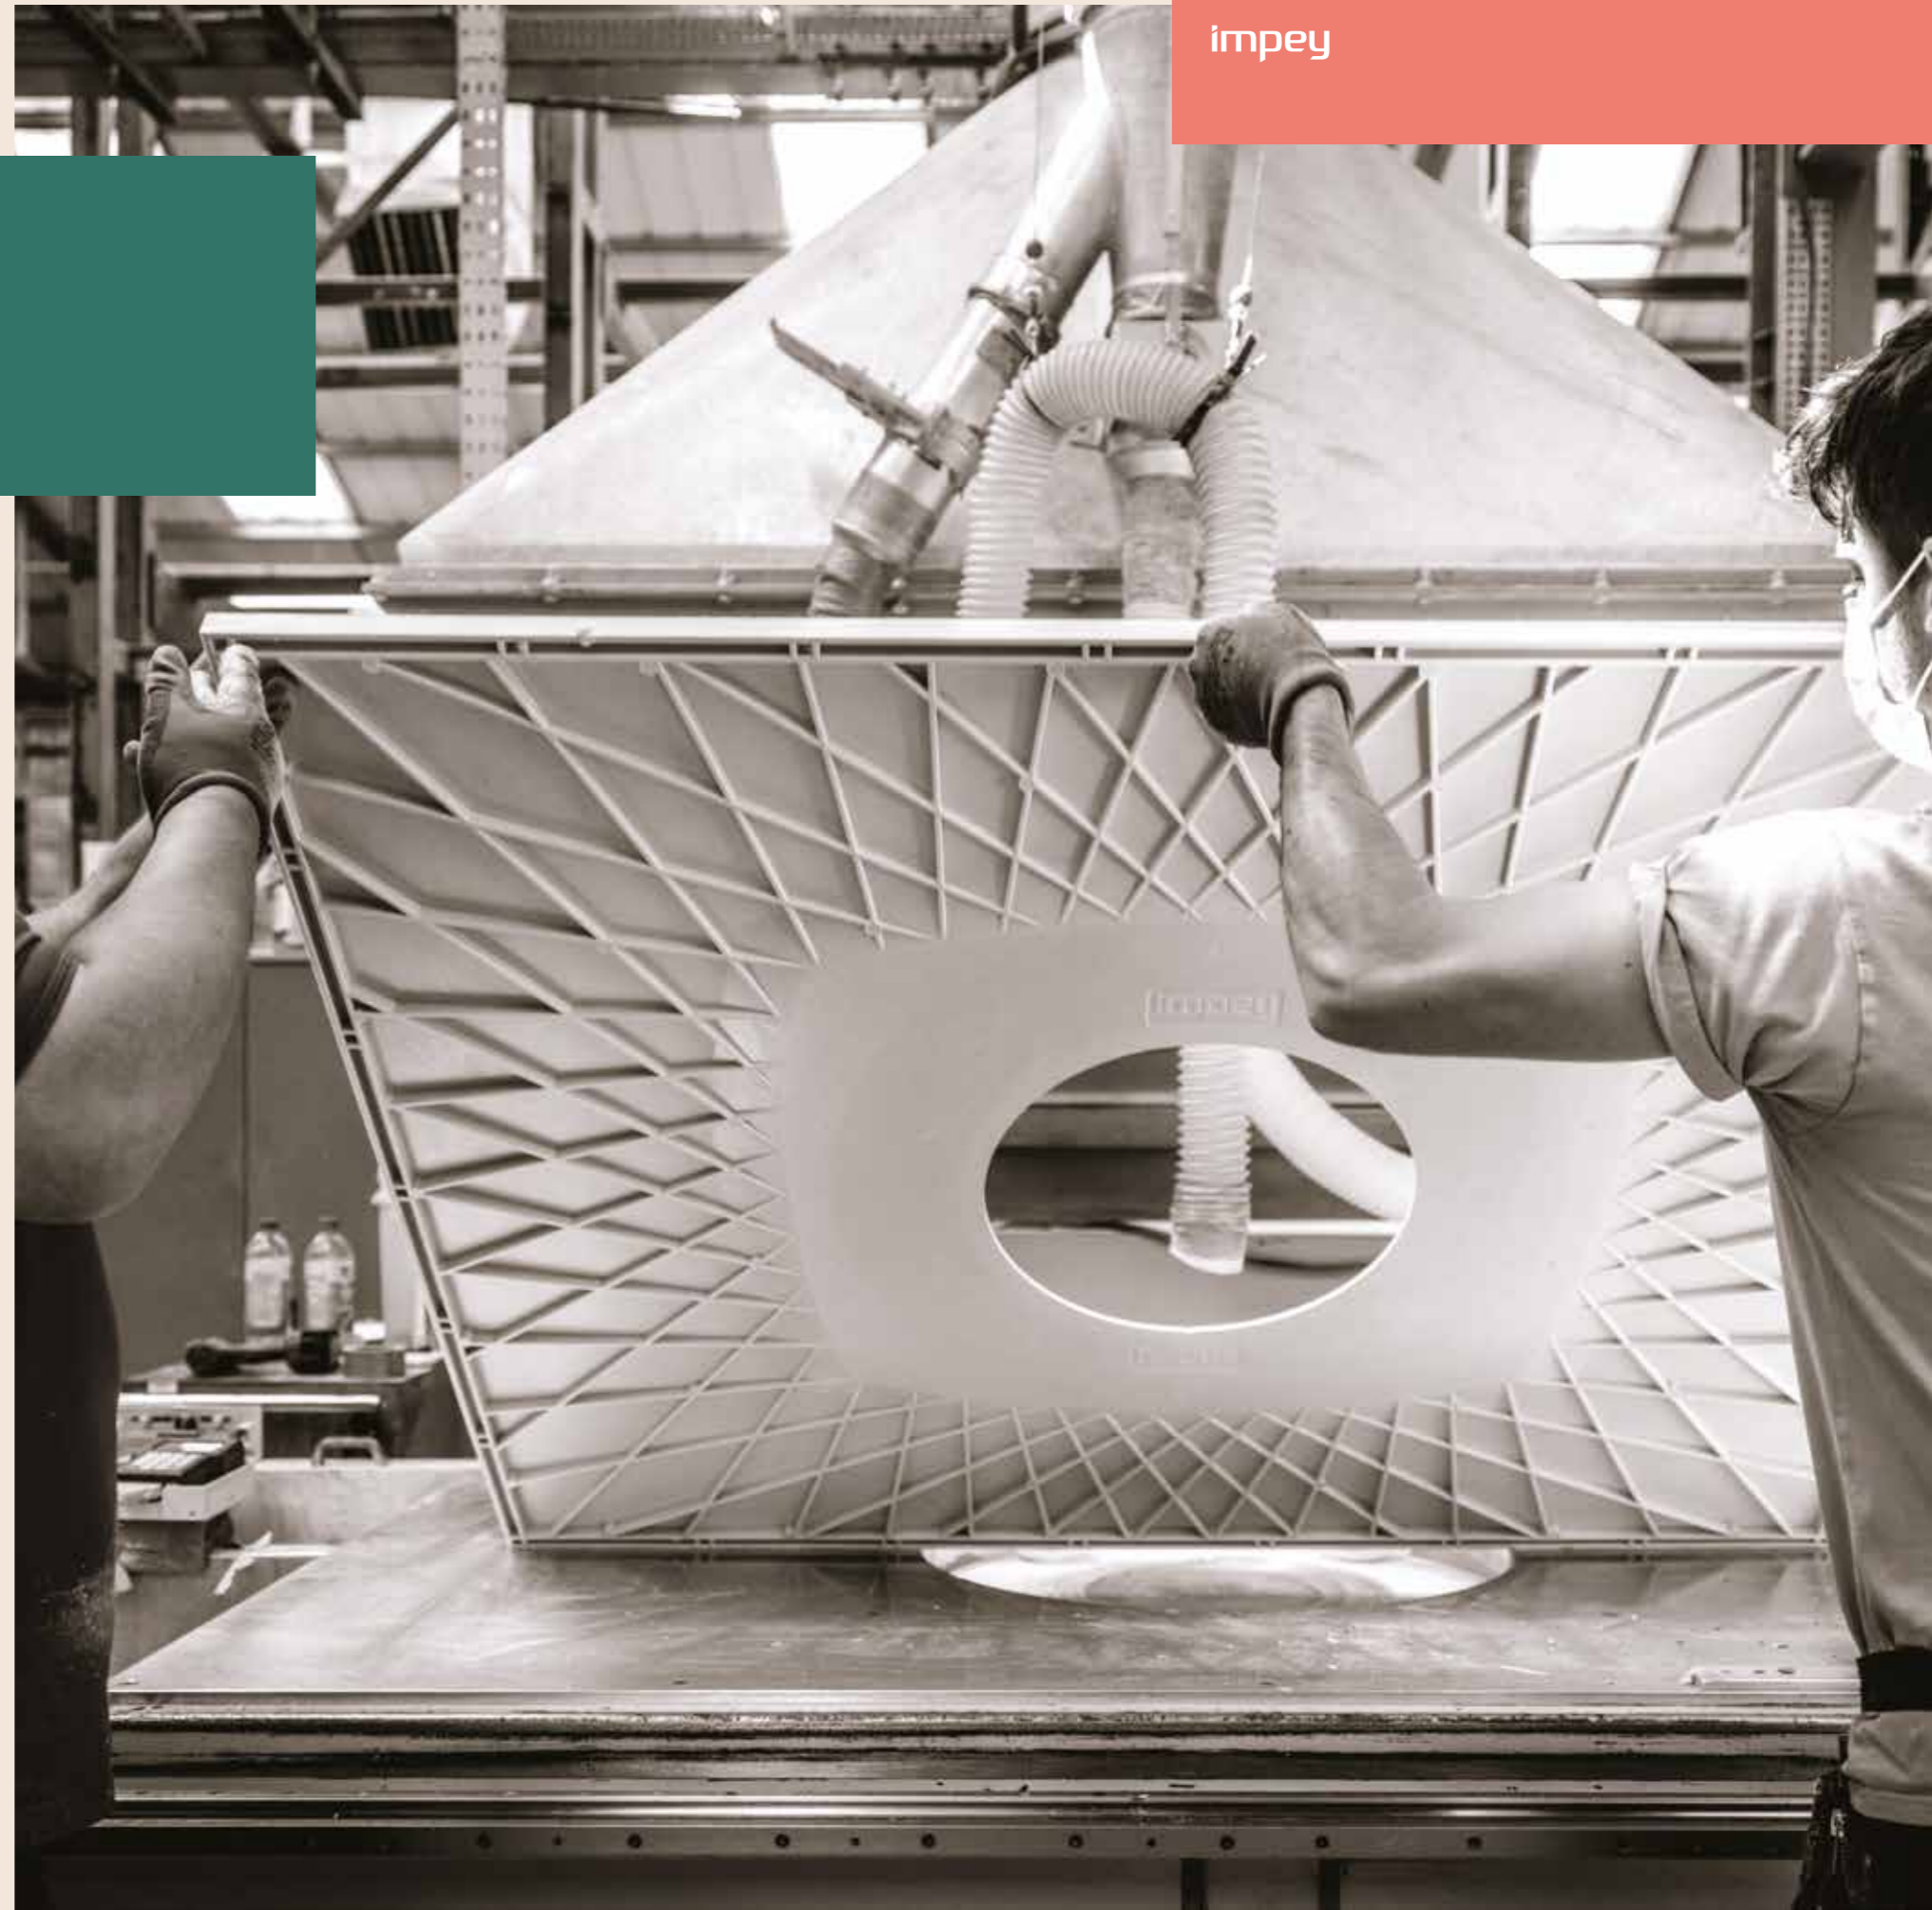

Proud UK Manufacturer

As a UK-based manufacturer, we are proud to employ a local workforce.

Each Impey product is made with the highest levels of care and attention to detail.

At our manufacturing site in Bridgnorth, Shropshire, we use streamlined, modern manufacturing processes to ensure that all our products are of unparalleled quality and produced as efficiently as possible.

Boston Comfort & Safety Accessories

Crafted from stainless steel with a choice of polished or brushed finish.

**Practical
& Personal**

**Form
& Function**

Designed to update and enhance bathrooms for independent living, this range is focused on providing discreet assistance and support.

Key Benefits

- Choice of brushed or polished finish
- Made from high quality stainless steel
- Concealed fittings: no visible mounting hardware after installation
- Ergonomic design
- Tested and approved in accordance with the most recent TÜV standards
- Easy to install and easy to clean

Maxi-Grip Grab Rails

The strongest, easiest to grip and most versatile hand rail system available.

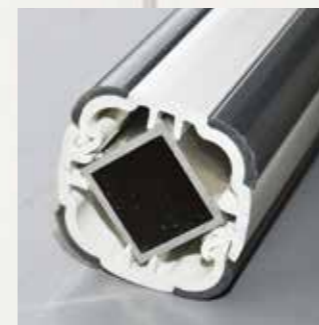

Practical & Personal

Form & Function

Uses a square aluminium box section as reinforcement for maximum strength.

Key Benefits

- Supports up to 150kg (23 stone)
- Options for 90°, 60°, 45° or 30° angles
- Modular kits available allowing for custom configurations
- Available in 1.8m lengths that can be cut to size
- Can be used for internal or external corners
- High quality corrosion resistant steel
- Four point wall fixing and flared brackets reduce the stress points creating a secure fixture
- Lifetime guarantee

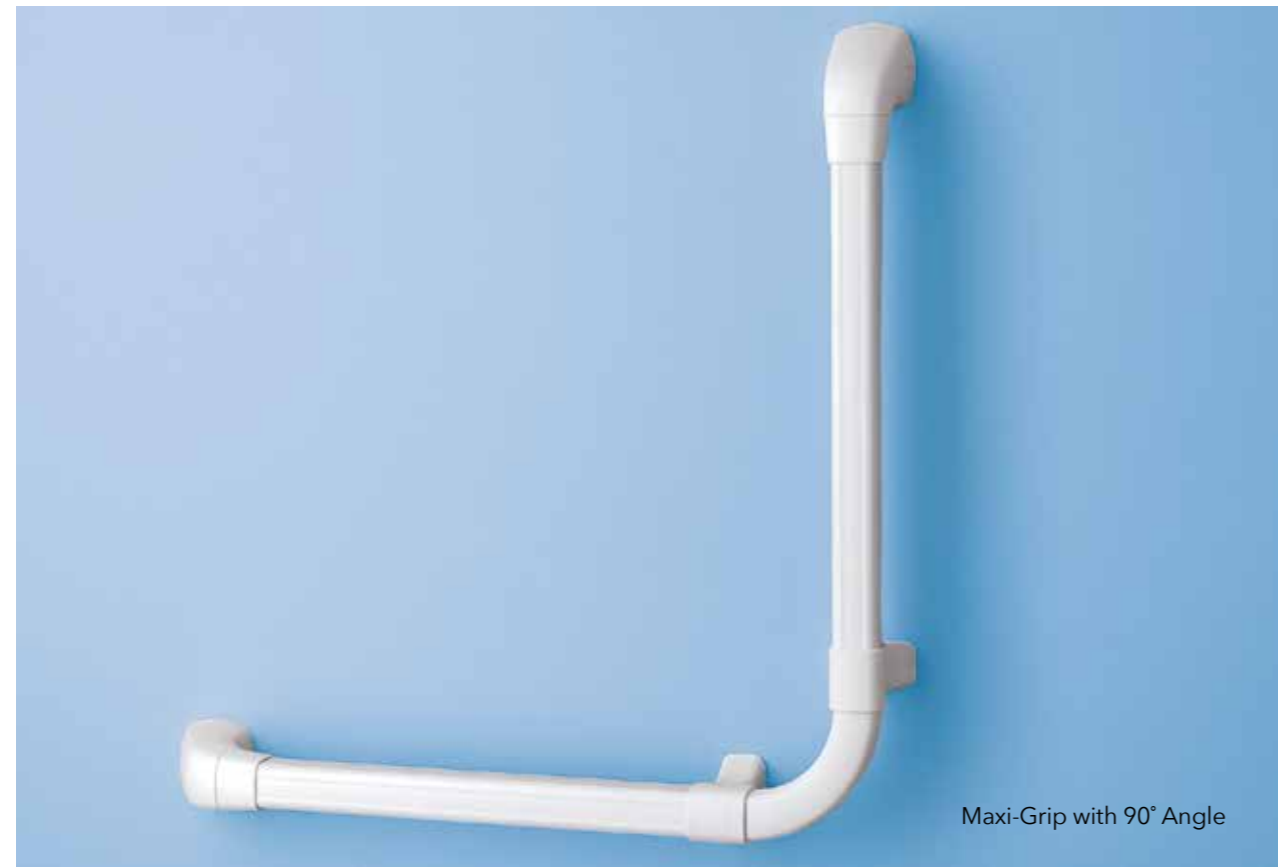

Aluminium core for maximum strength

Maxi-Grip

The square profile of the Maxi Grip range improves slip resistance, whilst the unique co-polymer extrusion of Maxi-Grip Plus gives the corners of the rails a soft tactile quality for increased grip and comfort. Contains an aluminium core for maximum strength and can support up to 150kg (23 stone). Square design gives better grip and stops the Grab Rail from rotating.

Maxi-Grip can support loads of up to 150kg (23 stone). The range also includes options for 90°, 60°, 45° or 30° angles plus internal and external corners.

Maxi-Grip with 90° Angle

SlimFold™ Shower Seats & Benches

A shower seat is an important addition to an accessible bathroom. It's a good idea to assess the size and layout of the showering area and any individual requirements before deciding upon an option.

Practical & Personal

Form & Function

Our SlimFold range of seats combine high performance, a range of colours and options for varying levels of care and comfort.

Key Benefits

- Slim design fits closely to the shower wall
- Seat only protrudes 114mm when folded
- Can support up to 300kg (47 stone)
- Hygienic and easy to clean surfaces with no dirt traps
- Seat can be mounted as low as 415mm
- Mechanism designed to easily fold down and prevents the seat from accidentally dropping down
- High quality corrosion resistant steel
- Top of the seat is angled back at 4° to allow water to run off the back.
- No drop down legs eliminates the trip risk for users and increases wheelchair turning circle options
- Rounded, smooth seats made from flexible polyethylene provide natural padding as well as being comfortable and warm to the touch
- Lifetime guarantee

SlimFold™ Shower Seat

When folded the seat has a projection of only 114mm, plus you see the stylish top of the seat, rather than the underside. This is also safer, because it cannot accidentally drop down if knocked. To deploy it you simply pull out the front edge so that the rear of the seat slides down and the arms then fold neatly into place.

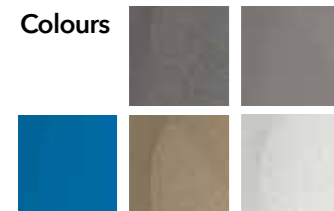

Using cross bracing wall supports, instead of traditional floor standing legs, prevents the risk of trapping your toes or banging your feet, or of excessive weight on the legs damaging the floor. It also allows you to mount the seat as low as 415mm if required and the top is slightly angled so that water runs off the back.

The rounded and smooth seat is comfortable, feels warm to the touch and is easy to use. This revolutionary design, made in Britain using high quality corrosion resistant materials, can support up to 300kg* (47 stone).

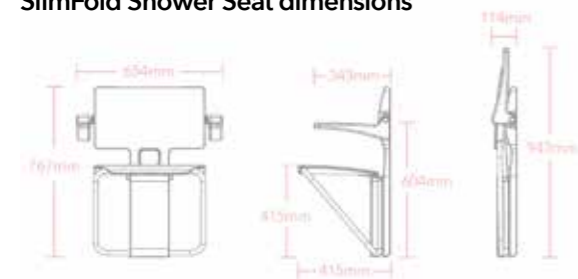

*Independently tested to BS12182 and BS12727

SlimFold Shower Seat dimensions

SlimFold Seat range - fold down mechanism

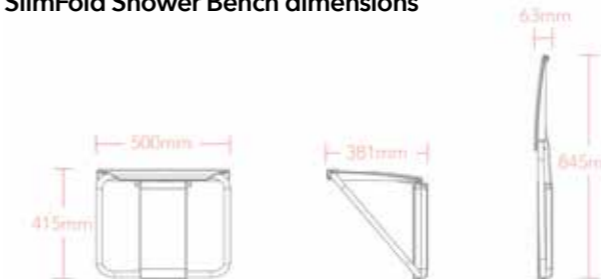

To deploy it you simply pull out the front edge so that the rear of the seat slides down and the arms then fold neatly into place. The top of the seat is angled at 4° so that water runs off the back.

SlimFold™ Shower Bench

SlimFold Shower Bench dimensions

The SlimFold Shower Bench possesses all the features of the SlimFold Shower Seat in terms of colour choice, weight limit and seat folding mechanism. However due to the lack of back and arms it protrudes only 63mm from the wall when folded.

All SlimFold Shower Seat designs come as standard with White Stone wall fixed back

Elevate Half Height Doors

Half height carer doors are all about assisted showering and have evolved over the past thirty years to offer greater assistance to carers when assisting someone in the shower.

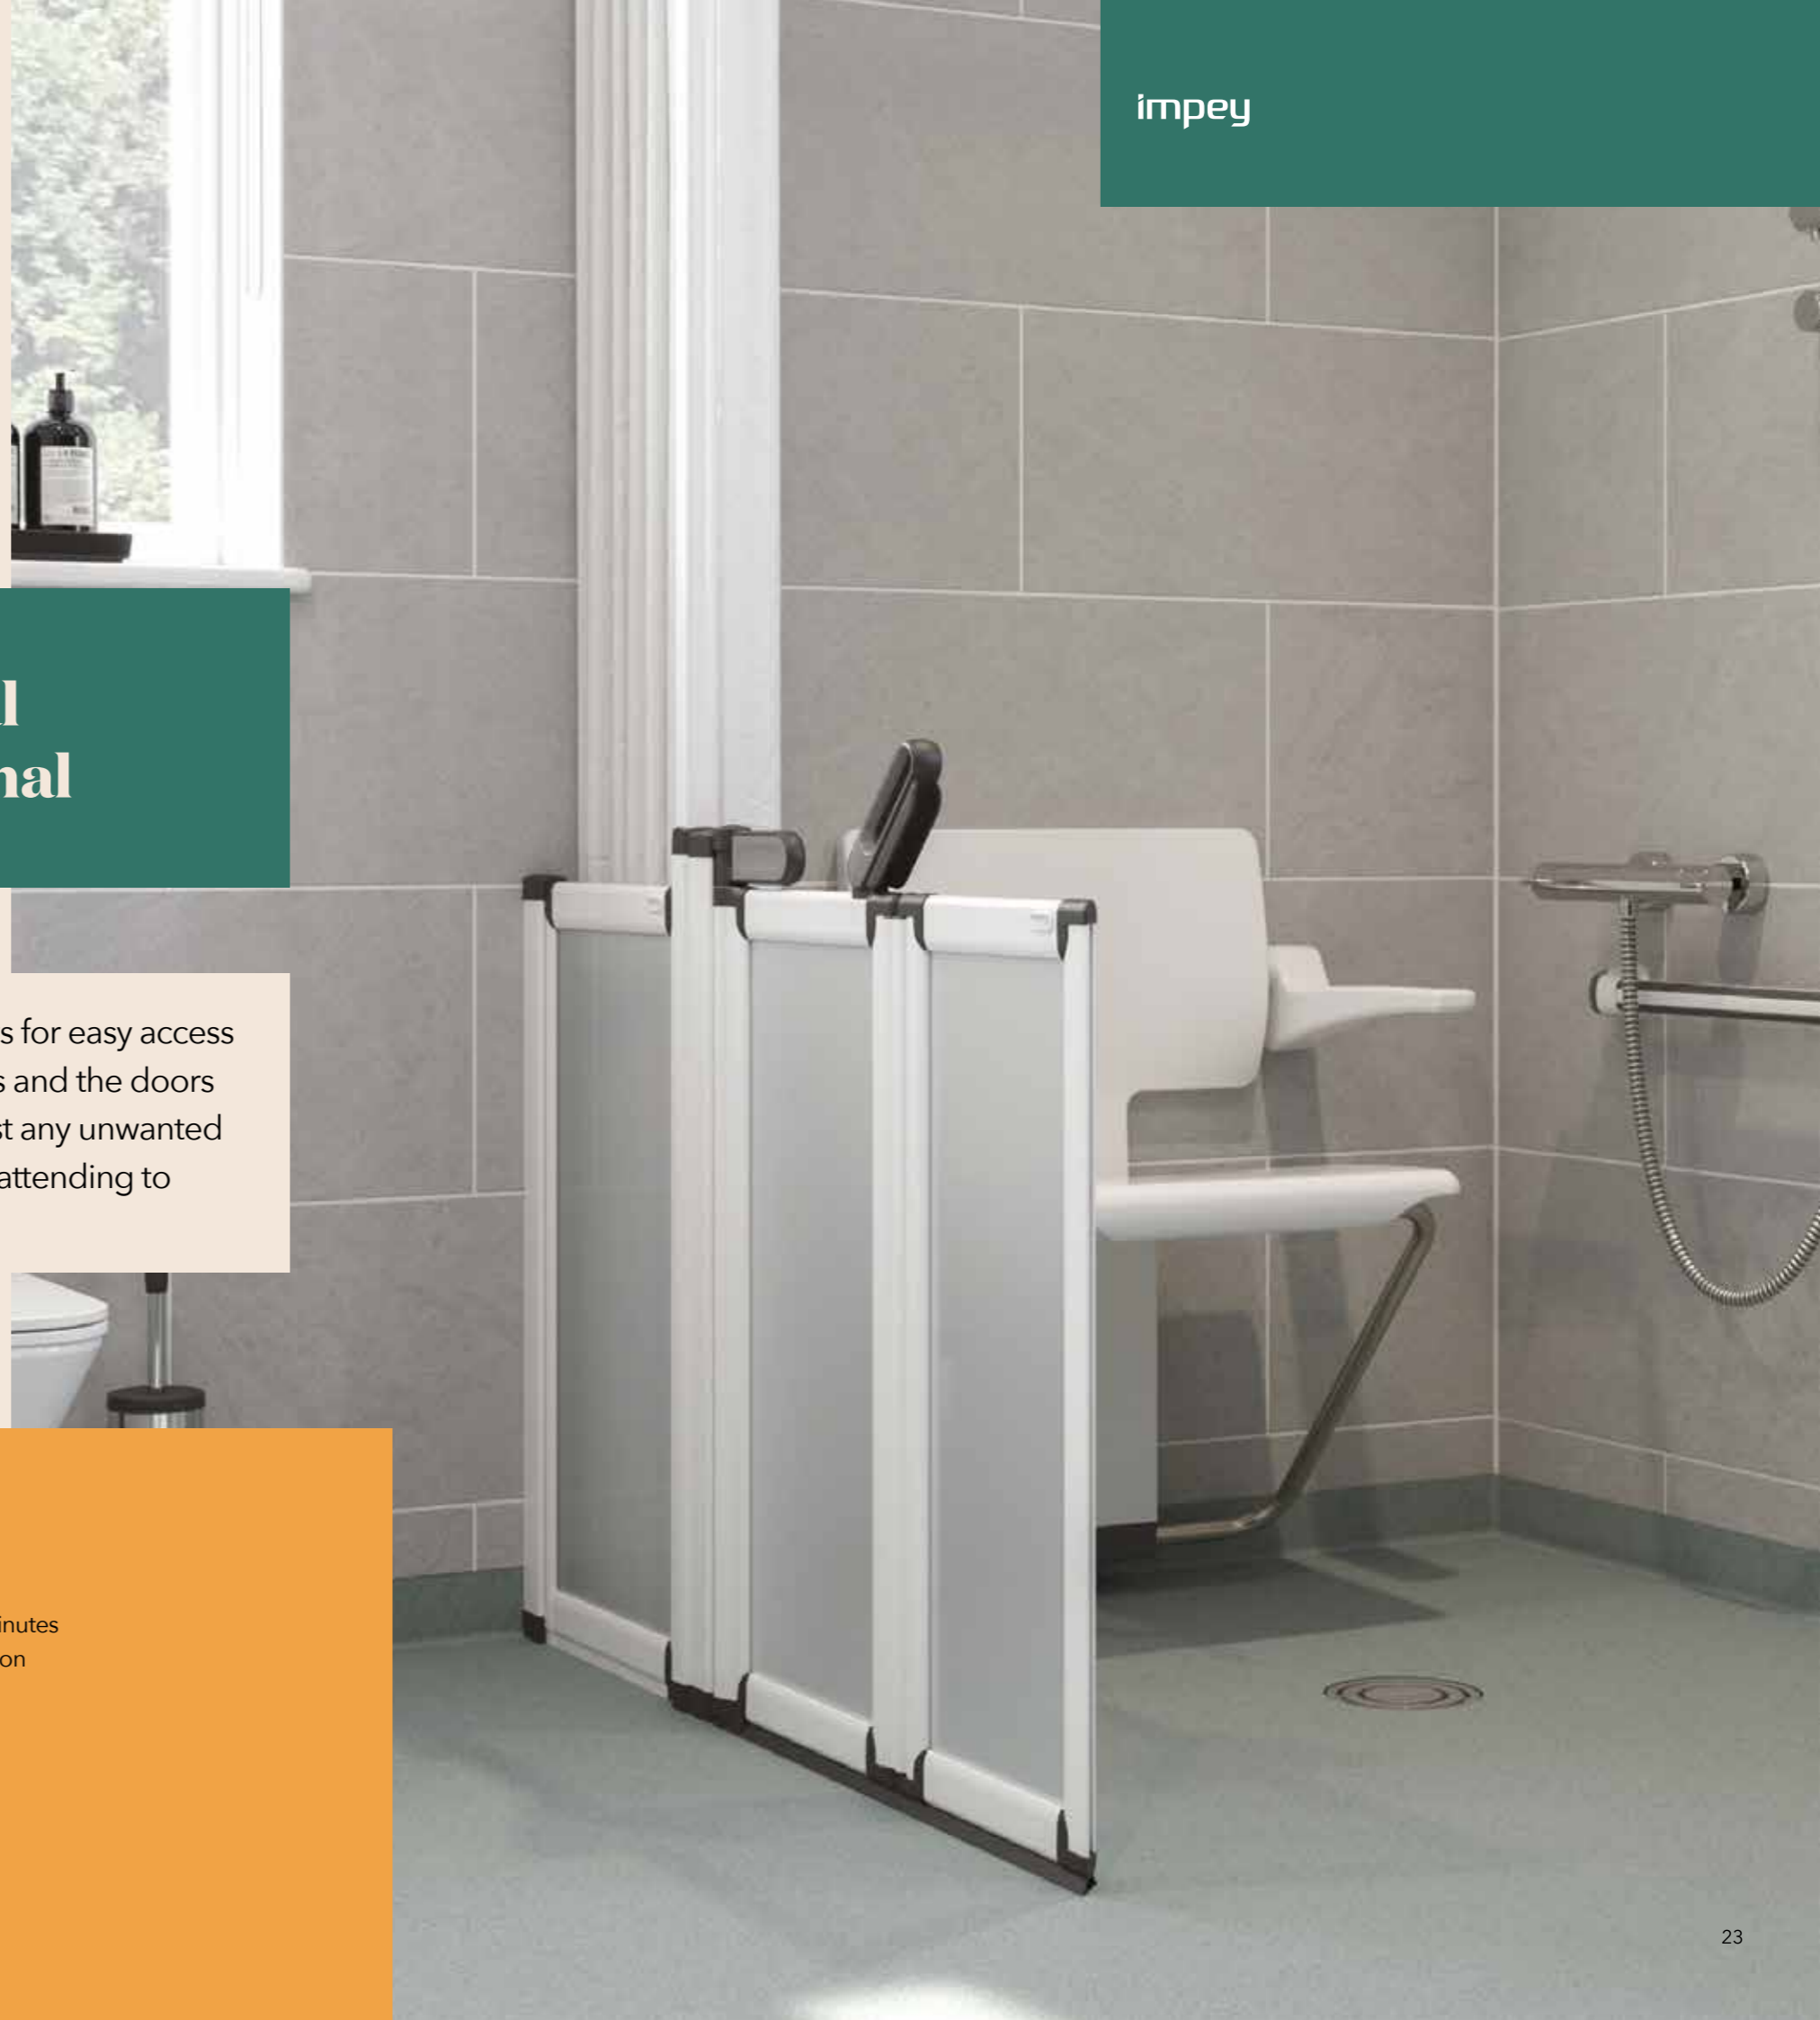

Practical & Personal

Form & Function

The waist height allows for easy access to any shower controls and the doors themselves guard against any unwanted water escaping when attending to those showering.

Key Benefits

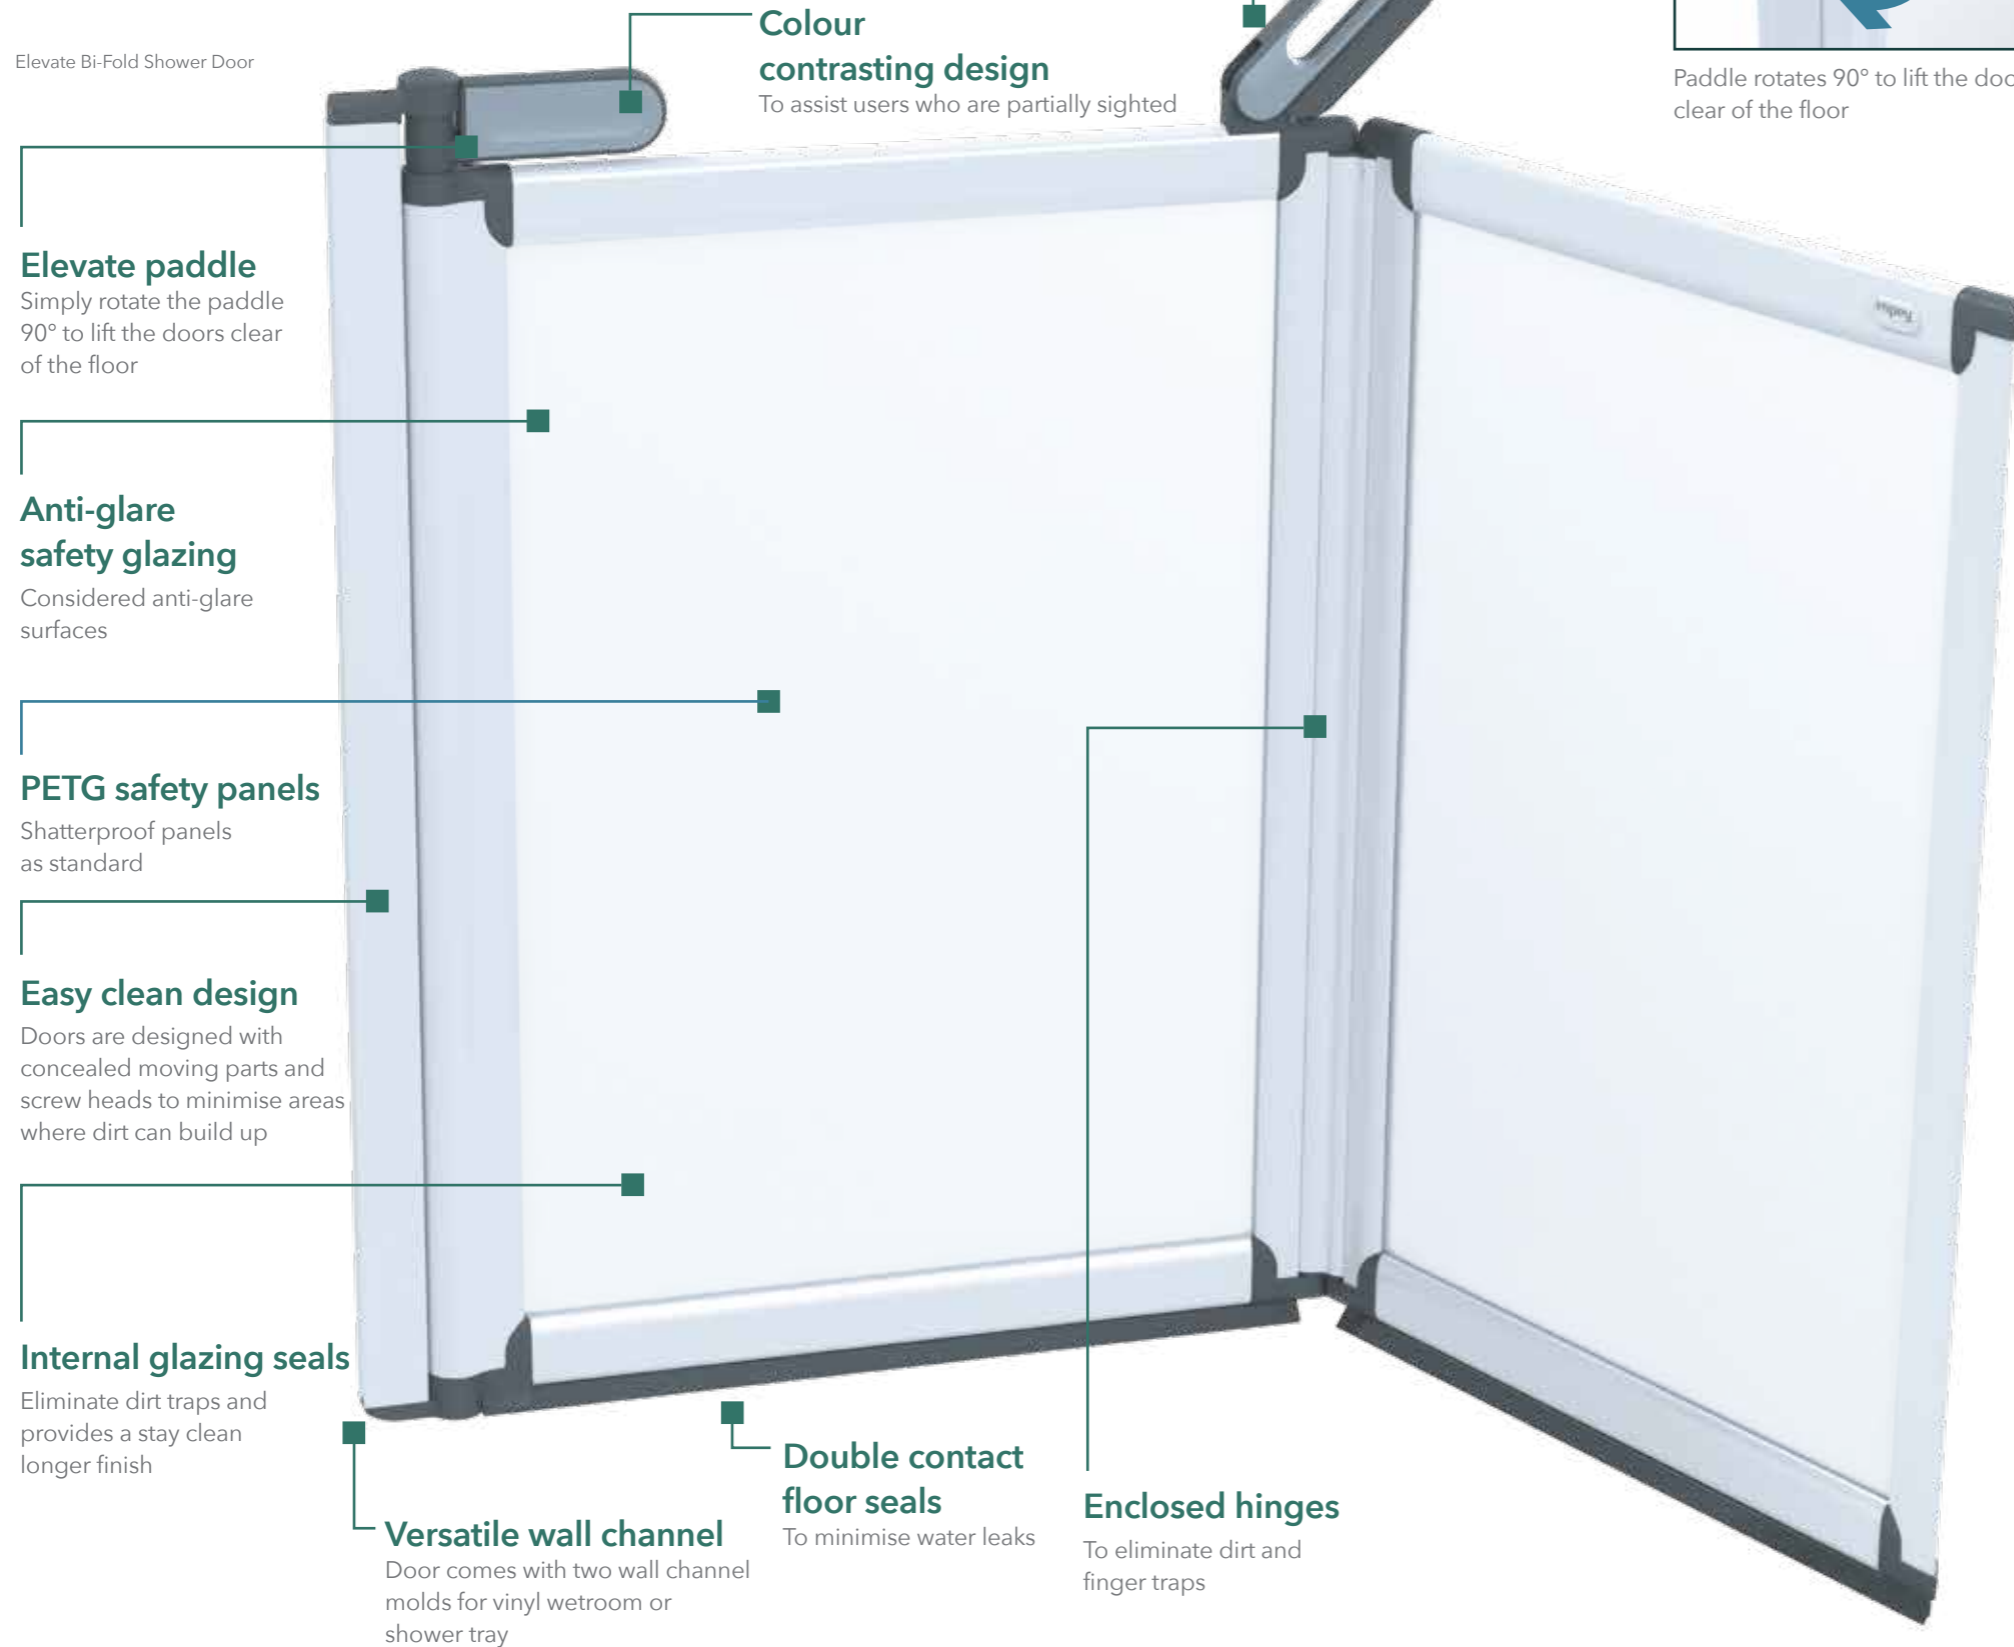

- The UK's market leading half height door
- Available in wide range of folding and sliding sizes to suit Impey wetroom floor formers
- No drilling required through the tiled or vinyl floor
- Fully enclosed hinges
- Colour contrasting design
- Tactile materials
- Average install time of 20 minutes
- User friendly paddle operation
- Serviceable parts
- Bespoke sizing available
- Lifetime guarantee

Intuitive and easy lifting door design

UK CA CE CE tested to BS EN 14428

Elevate Bi-Fold Shower Door

Elevate paddle
Simply rotate the paddle 90° to lift the doors clear of the floor

Anti-glare safety glazing
Considered anti-glare surfaces

PETG safety panels
Shatterproof panels as standard

Easy clean design
Doors are designed with concealed moving parts and screw heads to minimise areas where dirt can build up

Internal glazing seals
Eliminate dirt traps and provides a stay clean longer finish

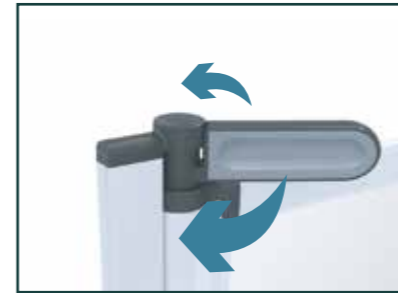

Versatile wall channel
Door comes with two wall channel molds for vinyl wetroom or shower tray

Easy to grasp latch handle
No grip required for users with limited strength or mobility by simply placing your hand through and lifting

Colour contrasting design
To assist users who are partially sighted

Double contact floor seals
To minimise water leaks

Enclosed hinges
To eliminate dirt and finger traps

Paddle rotates 90° to lift the doors clear of the floor

Bi-Fold Door only
Latch handle lifts up and down to lock doors into place

Bi-Fold Door only
Bi-Fold Doors can be folded back to allow for wider opening and storage

When the door is opened, the Elevate door rises to create a 15mm gap.

Double contact seals minimises water leaks

15mm

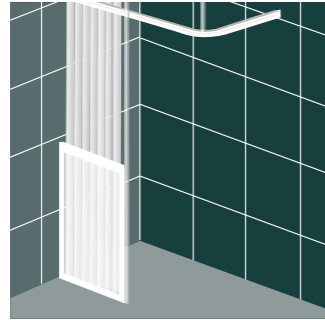

Elevate Sliding Shower Door

Common corner and alcove configurations

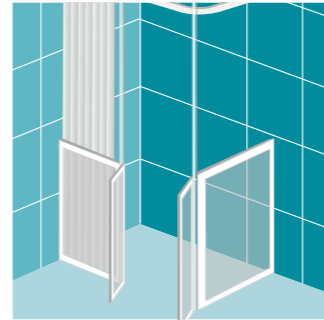

All corner options can be supplied with L-shaped curtain rail and curtain. All door configurations are available left or right handed (left hand illustrated).

Pair of sliding doors meeting on the corner

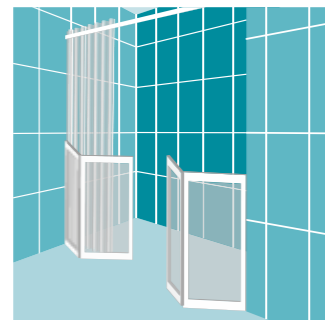

Option 6
Fixed 400mm half height panel, floor to ceiling pole with pair of sliders meeting a return pair of sliders on the corner

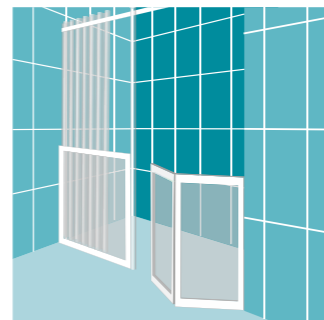

All alcove options can be supplied with L-shaped curtain rail and curtain. All door configurations are available left or right handed (left hand illustrated).

Bespoke options available

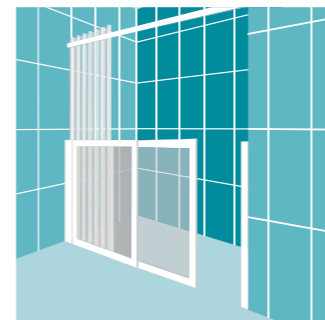

Prices start from £400

Option G
Two half bi-fold doors meeting in the middle

Option M
One bi-fold door meeting fixed 400mm panel with floor to ceiling pole

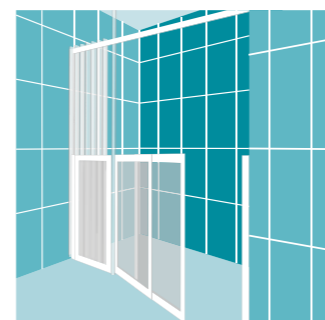

Option 2
One set of sliding doors hung off one side latching on opposite wall

Option 3
One fixed half height 400mm panel with floor to ceiling pole and one sliding door hung from opposite wall

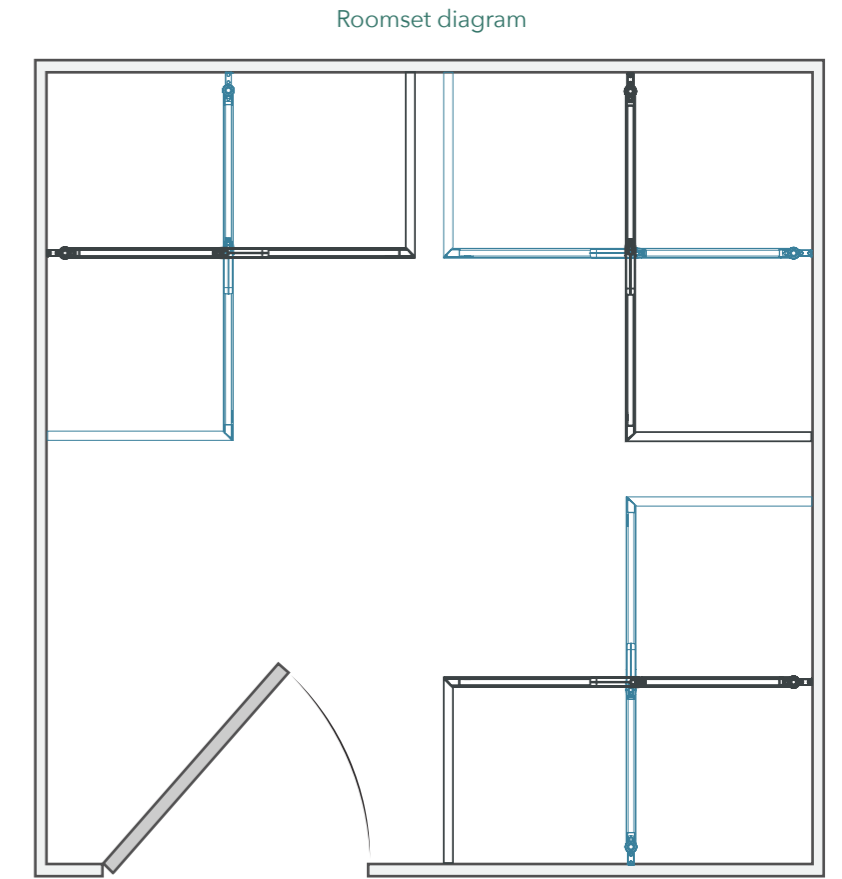

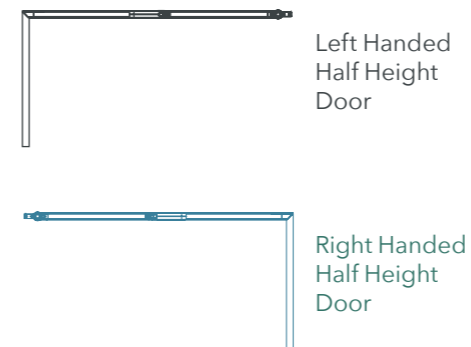

Option 4
Pair of sliding doors hung between walls meeting in middle

Option 5
One 400mm fixed half height panel with floor to ceiling pole, one sliding door hung off pole and latching on opposite wall

Half Height Door - handing

When working out whether the area needs a Left Handed or a Right Handed Half Height Door, it is best to refer to the roomset diagram.

Half Height Door - sizing

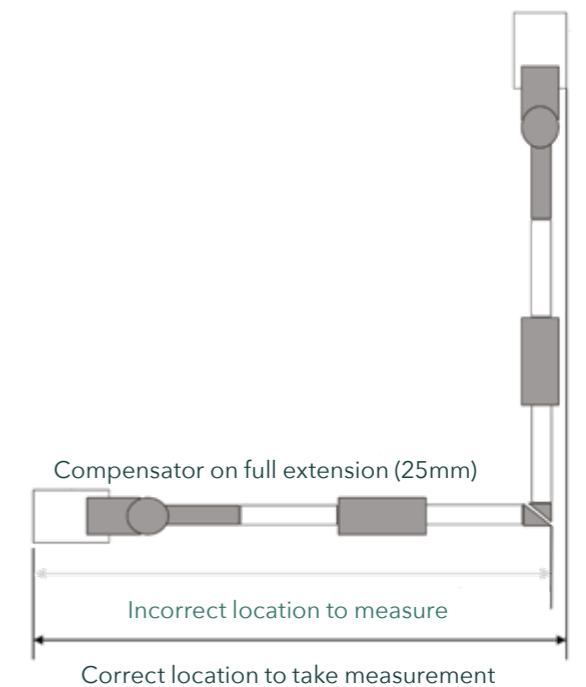

Standard Half Height Doors are manufactured to allow for wall tile, or shower board finishes as standard. Do not make extra deductions for wall finishes when taking measurements.

Special / Bespoke
If the dimensions provided upon ordering are 'Tile-to-Tile', 10mm is added per door to ensure maximum size ordered.

Half Height Door - measuring

Elevate have been designed to feature a 25mm downward compensation to make allowance for untrue walls.

Please check all measurements prior to ordering, and contact our Technical Team if you have any queries.

For advice and guidance on bespoke options, please call our Technical team on 01460 256080

Lifetime Guarantee

Supreme Glass Screens

Supreme Glass Shower Panels offer a luxurious appearance, whilst also providing practical support and ease of entry to the shower.

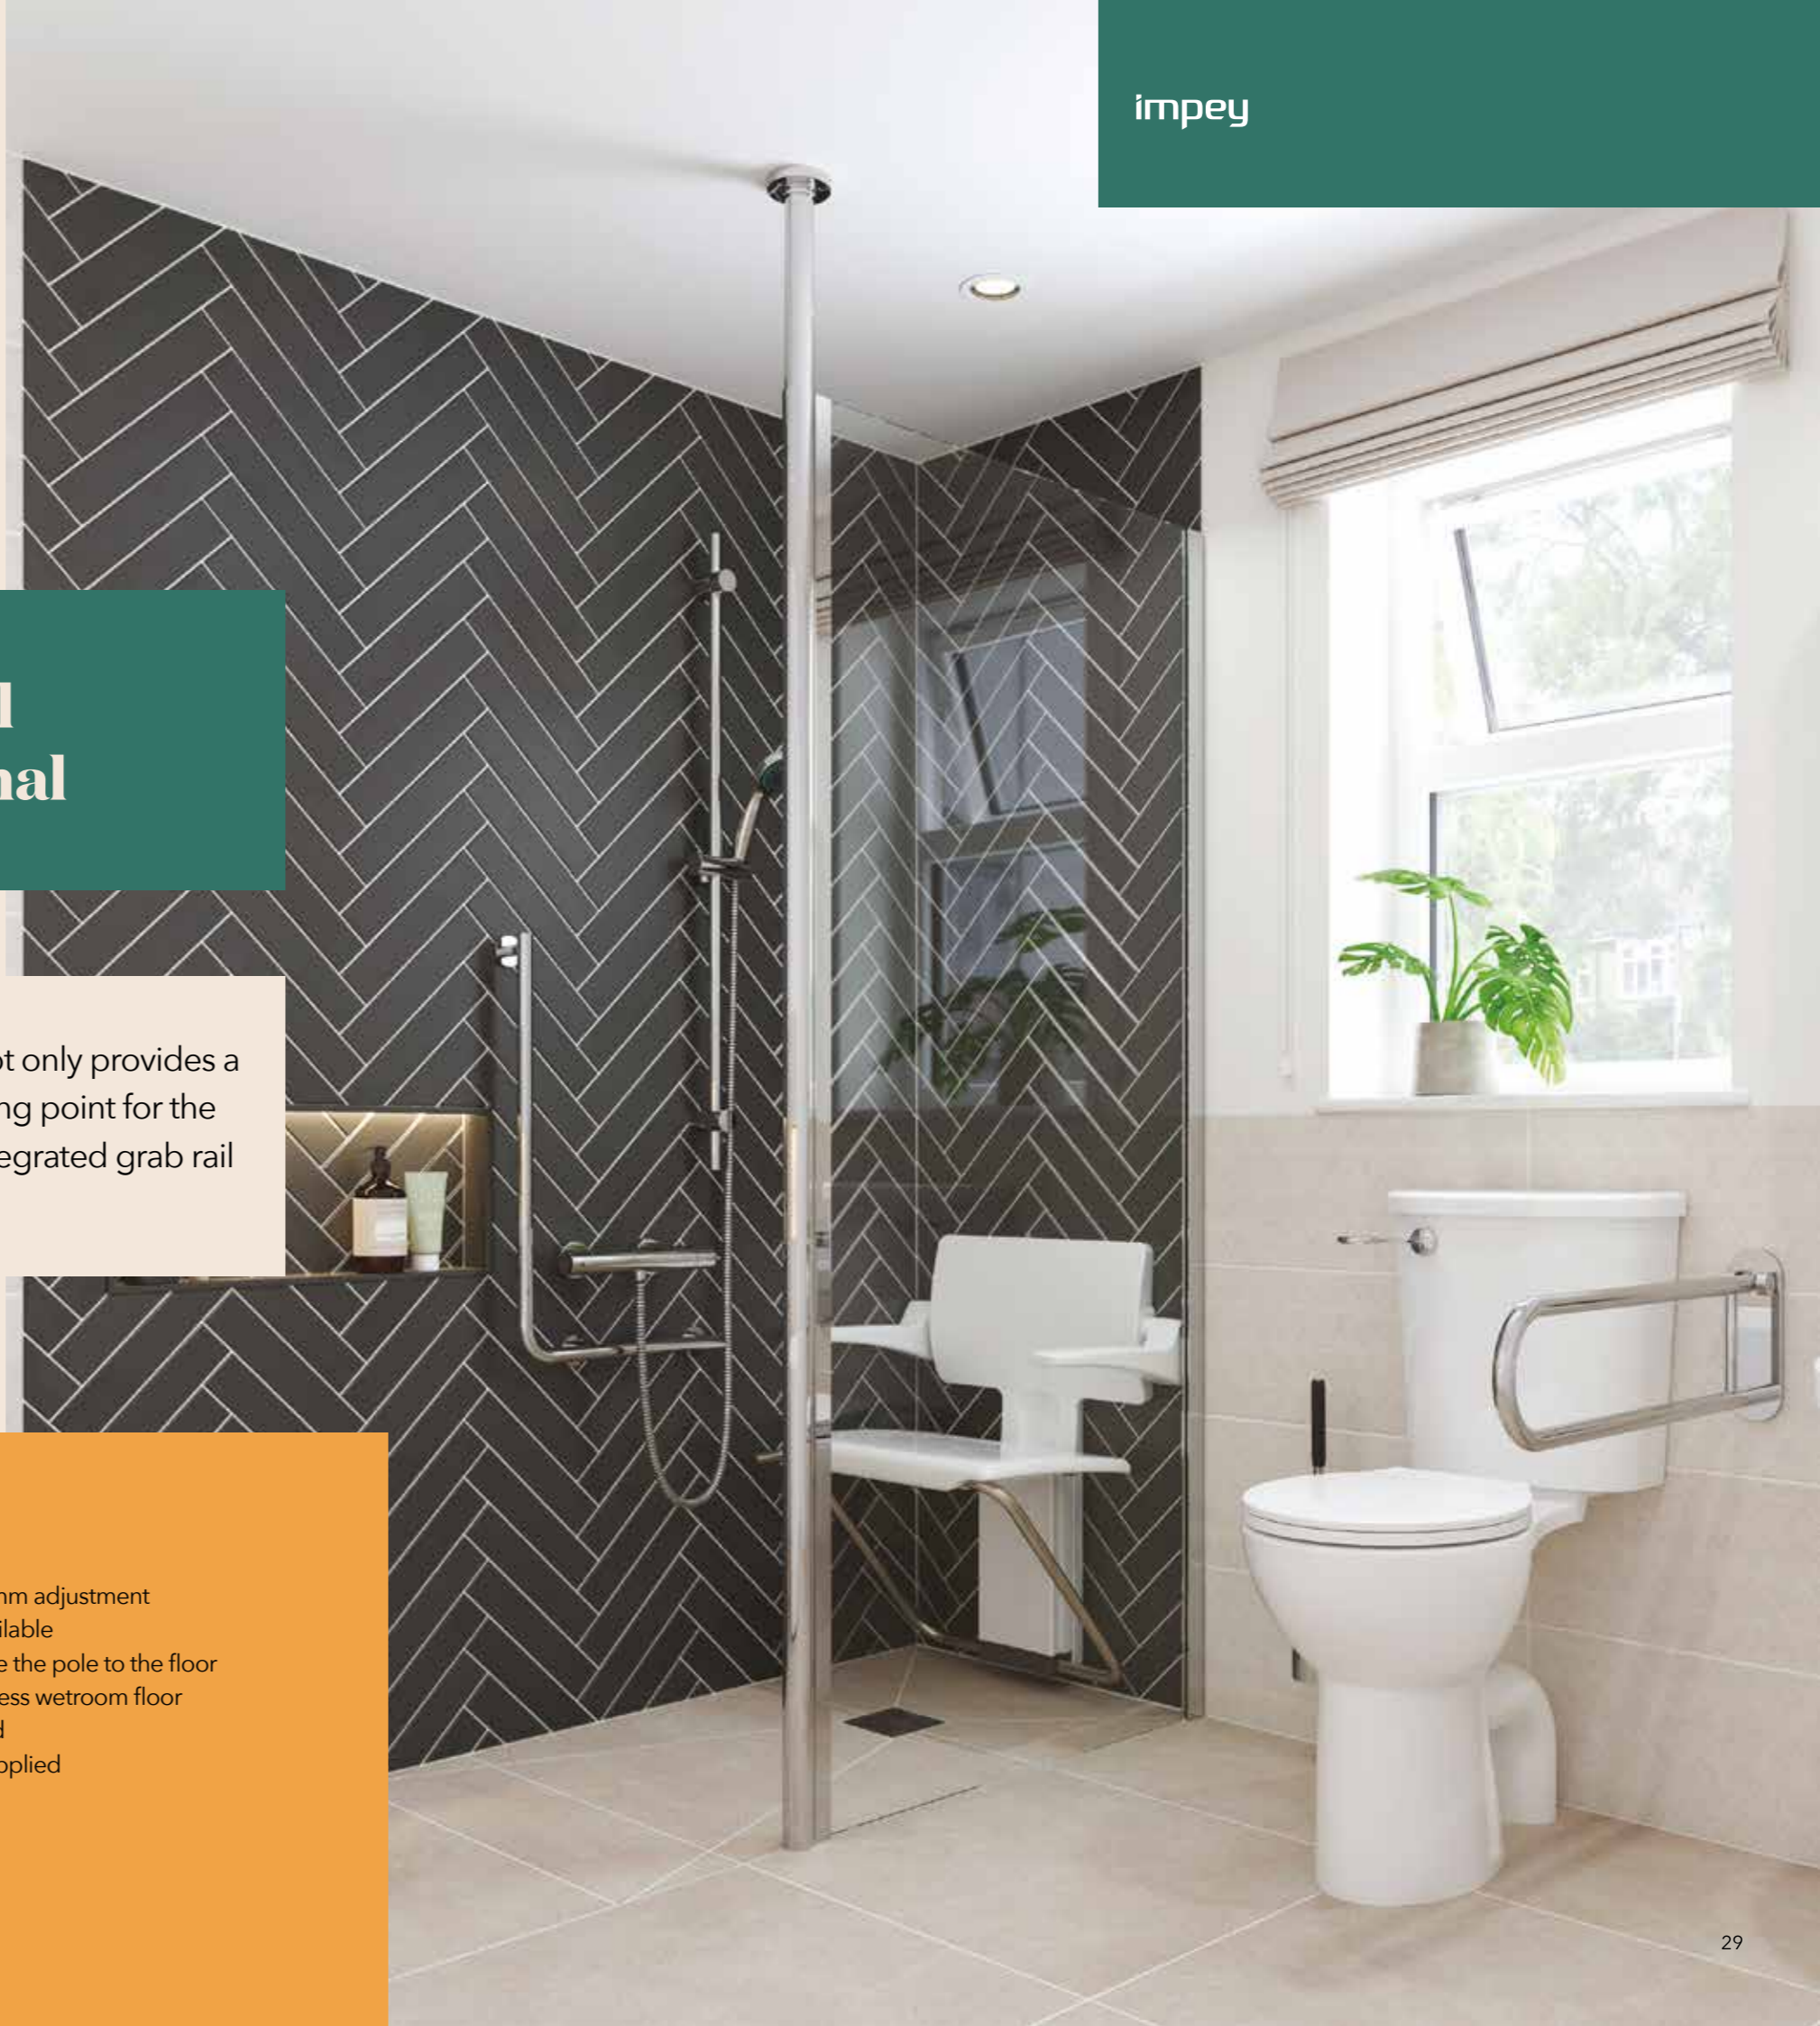

Practical & Personal

Form & Function

The telescopic pole not only provides a rigid and stylish securing point for the glass but acts as an integrated grab rail for discreet assistance.

Key Benefits

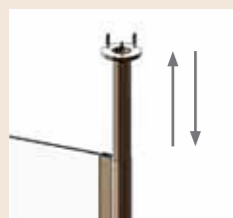

- Available in 5 sizes
- Two install options
- CE compliant to BS EN 14428
- Coving extension profile available for vinyl floors
- No breaching of the floor required to fix the pole, protects against water ingress
- Pre-drilled wall profile
- Push in glass profile with 20mm adjustment
- Coving extension profile available
- No drilling required to secure the pole to the floor
- Suitable for use on level-access wetroom floor
- All fixings and seals provided
- Fully detailed instructions supplied
- Lifetime guarantee

Supreme Glass Screens

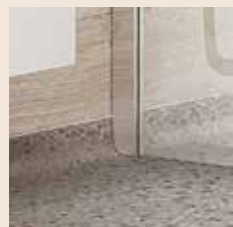

Supreme Glass Shower Panels offer a luxurious appearance, whilst also providing practical support and ease of entry to the shower, fitted on a wetroom floor.

They are supported by a polished aluminium column, which can be ceiling fixed, or wall braced, which offers the option of hanging a shower curtain to provide further screening. The column is secured to the floor with TigerFix, an innovative new fitting that requires no screws and can also be easily removed.

Telescopic pole

Simply adjust to height, twist, lock & secure. No screws or cutting required

Coving profile

For areas where a coved vinyl floor has been installed you will need to order a coving extension profile
Code: ICEP2000

TigerFix

An innovative adhesive solution that allows easy install without the need for drilling or fixing. It can also be easily removed without causing any damage

Luxury combined with practicality

2000mm high, plain glass with Aqua-Shield Easy Clean Finish

Telescopic pole

Can also be attached by wall braced fixing

Rigid strong support

8mm toughened safety glass

Shower Panels are available in 5 sizes

700mm, 800mm, 900mm, 1000mm and 1200mm wide

Coving profile

Shower Curtains, Screens and Waste Pumps

With a focus on personal space and ease of use when showering.

Practical & Personal

Form & Function

Practical additions to your bathroom, keeping water where it belongs.

Overview

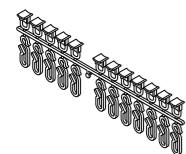

- All shower curtain rails are white and made from powder coated aluminium
- Antibacterial shower curtains available in white or grey
- Window bridging kits provide a simple solution in situations where a window causes an obstruction during curtain rail installations.
- Lightweight portable freestanding shower screens offer an instant solution for shower areas that do not require a permanent fixture
- Shower Waste pump kits can be fitted when gravity drainage is not an option

Shower Rails

All the rails are white and made from powder coated aluminium and come complete with fixings which includes all brackets, screws, rawl plugs, ceiling support rods and shower curtain hooks and gliders.

Bespoke sizes can be made to order.

FG-IPS3W	2 PANEL 1000MM	£434.88	£521.86
FG-IPS4W	4 PANEL 1250MM	£472.80	£567.36

Lightweight portable freestanding shower screens offer an instant solution for shower areas that do not require a permanent fixture. 750mm high and made from white powder coated aluminium with grey handles and flexible floor seals. All panels are made of semi-transparent and anti-shatter PETG.

Shower Waste Pump Kits

Shower Waste Pump Kits can be fitted when gravity drainage is not an option. The pump is activated by a flow switch or flow sensor installed in the water supply to the shower.

When the shower is turned on water passes through the flow switch or flow sensor, activating the pump. Alternatively we offer one pump that is controlled directly by a connection to an electric shower, without the need for a flow switch.

All our pumped kits are suitable for wetroom floors or shower trays and include all the fittings needed for a single feed electric shower installation, but please note that for mixer showers you will need a Mixer Shower Conversion Kit and for wetroom floors you will require a pumped shallow waste gully.

Whale Switch Connect Kit

Code: SWP

This is the original waste pump kit and has been successfully installed in over 150,000 homes across the UK.

Technical Specification

- Maximum drainage for electric showers 8l/min
- Maximum drainage for mixer showers 12l per minute (additional mixer valve conversion kit required) SWP/MX
- Self priming pump with protective cover
- Low voltage transformer conforms to EN60742
- 12 adjustable settings for electric & mixer showers
- Active link diagnostics
- De-puddling cycle: pump turns on for a brief period, 15 min after shower is turned off
- IP45 Rated

Whale Instant Match Bluetooth Pump Kit

Code: SWP/IMBT

Designed to be specifically compatible with the Mira Advance Flex Extra using Easy Pair bluetooth technology. A digital signal from the shower automatically adjusts the pump speed in relation to the shower flow rate.

Technical Specification

- Maximum drainage 8l/min
- Self priming pump with protective cover
- Low voltage transformer conforms to EN60742
- Active Link Diagnostics
- Anti-flood feature with Mira Advance Flex Extra - turns shower off if no power on pump
- IP45 rated

Whale Instant Match Premium Pump Kit

Code: SWP/IMP

Quiet operation, because the speed is regulated depending on the flow rate of water from the shower. This reduces noise output considerably, whilst also reducing wear on the pump.

Technical Specification

- Maximum drainage 12l/min
- Automatically adjusts to changes in shower flow rate
- Compensates for changes in voltage from main electric supply
- Self priming pump with protective cover
- Low voltage transformer conforms to EN60742
- IP45 rated

Whale Sense

Code: SWP/SEN

Whale Sense is a solenoid controller designed for the bathroom which reduces the risk of flooding.

- Automatically shuts off the water supply after a preset period, reducing the risk of a flood.
- Controls the water supply to the shower using solenoids.
- Added protection against flooding/increased water conservation.
- Hands free operation when used with a Passive Infrared Sensor (PIR) to activate the solenoids (may also be operated with a retractive switch).
